The statements described in this presentation that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements contain words such as "possible," "intend," "will," "if," "expect," or other similar expressions. Forward-looking statements are based on management's current expectations and assumptions, and are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. As a result, actual results could differ materially from those indicated in these forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, statements involving prospects for the company, expected revenues, capital expenditures, costs and results of operations and contingencies and other factors discussed in the company's most recent Form 10-K for the year ended December 31, 2015 and in the company's other filings with the SEC, which are available free of charge on the SEC's website at www.sec.gov. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated. All subsequent written and oral forward-looking statements attributable to the company or to persons acting on our behalf are expressly qualified in their entirety by reference to these risks and uncertainties. You should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of the particular statement, and we undertake no obligation to publicly update or revise any forward-looking statements to reflect events or circumstances that occur, or which we become aware of, after the date hereof, except as otherwise may be required by law. Adjusted earnings is a non-GAAP financial measure and the reconciliation to the most comparative GAAP measure is displayed in quantitative schedules on the company's website at www.deepwater.com.

Challenging Market

Commodity Prices

- O&G exploration programs cut due to low oil prices
- E&P companies focusing on preserving cash and low cost/near-term production
- Reduced E&P budgets set for 2016
- Increases in 2017 budgets dependent on further oil price increases and stability

Oil companies' net income*

- Combined 2015 estimated earnings of BP, Shell, Chevron and XOM
- **Lowest since 1998**
